

Water And Weather Monitoring Services in Ghana's Cocoa region: Innovative weather censoring and information services for local farmers

Worlali Senyo & Ellen van Andel, December 2016

Target
10,000 small-holder farmers

40% illiteracy

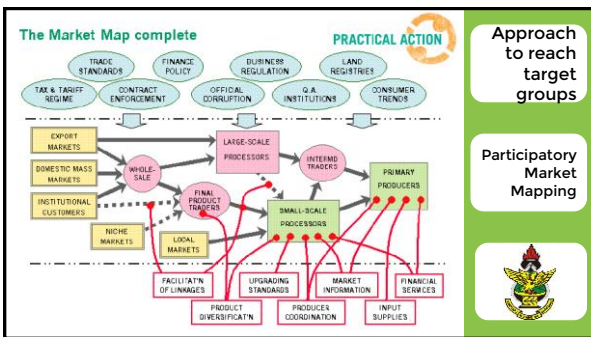

82% farmers live in rural areas (GSS, 2014)

Lack of accurate weather information leads to crop failure

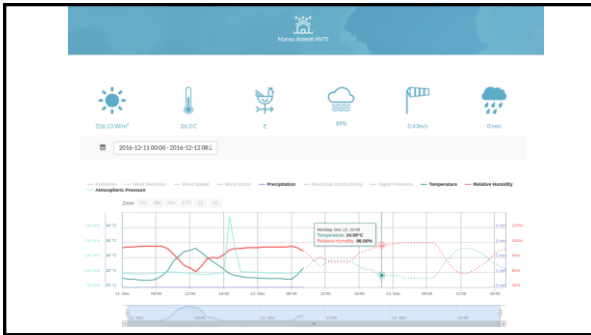

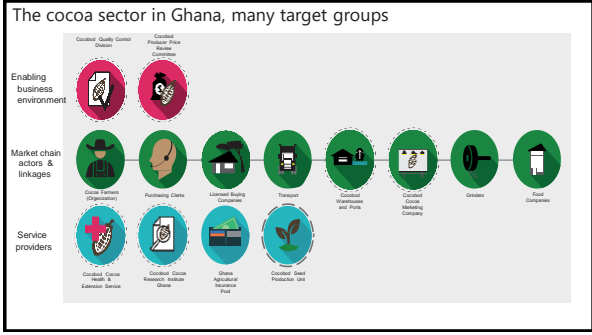

Weather Forecast

TAHMO

Partner: Ghana Meteorological Agency (GMet)

End-users: Cocoa farmers such as George

THANK YOU
