

Online Knowledge Portal Food & Nutrition security

The Food & Business Knowledge Platform (F&BKP) presents the online Knowledge Portal: a gateway to cutting-edge knowledge products on food & nutrition security!

-  Stimulate **knowledge sharing** to improve food & nutrition security.
-  Provide overviews and inspire professionals by presenting good practices and **cutting-edge knowledge**.
-  Showcase which **organizations** have excellent expertise on specific topics.

What can you **find** on the Portal?

- > Carefully selected and annotated references to relevant knowledge, innovations and developments in the field of food & nutrition security.
- > Items such as reports, briefs, papers, toolkits, blogs and articles.
- > System level, interdisciplinary and integrated knowledge.

See: <http://knowledge4food.net/knowledge-portal/>

How can you **contribute** to the Knowledge Portal?

Links to websites, articles, reports and multimedia that are relevant to the topics and goals of this Knowledge Portal can be published!

We ensure that uploaded items always link directly to your **original source**. Your knowledge product can reach a **broader audience** of FNS professionals in addition to your original channels.

We are interested in sharing your publications on the Knowledge Portal. Please send your publication or other (online) materials to:
info@knowledge4food.net

Youth

The gateway to knowledge for food and nutrition security.

Connecting business, science, civil society and policy.

The **Knowledge Portal** is part of the **Food & Business Knowledge Platform**, one of the five Knowledge Platforms for global development initiated by the Dutch Ministry of Foreign Affairs.

Professionals, networks and organizations from local, regional and global levels are invited to participate in the Platform. Come **share, improve and generate knowledge on food systems** at the time when the world is facing multiple challenges.
