# Responding to Fall Armyworm in Africa (e-conference)

October 22-26, 2018  
13:00 - 14:30 GMT

Participants in this **online e-conference** are invited to join five sessions on various aspects of responding to the FAW outbreak in Africa. An online platform will be available 24/7 for participants to meet, share work, and continue the discussion. The conference will result in a shared action agenda that everyone can contribute to. This action agenda will guide responses to the FAW outbreak in the year to come.

## Confirmed speakers:

**Frederic Baudron**, CIMMYT

**Prasanna Boddupalli**, CIMMYT

**Peter Chinwada**, University of Zimbabwe

**Ken Giller**, Wageningen University and SDSN

**Joseph Huesing**, USAID

**Paul Jepson**, Oregon State University

**Charles Midega**, Icipe

**Linda Veldhuizen**, Wageningen University and SDSN

## Program in brief:

22 October: Fall Armyworm (FAW) identification and infestation

23 October: Monitoring FAW infestation across Africa

24 October: Effects of pesticide application in response to FAW

25 October: What has been tried so far?

26 October: What else can we try?
