

Delivering at scale with evidence of impact

What?

You are invited to a lunch seminar on how CABI implements its award-winning food security programme Plantwise, with evidence of outcomes and impacts within the DGIS results framework.

How does the approach used to manage human health inform a theory of change to improve plant health systems and lead to increased farmer production and incomes across Africa, Asia and Latin America & Caribbean? What are the challenges to get to sustainability, monitor and evaluate outcomes and impact? How are results communicated to stakeholders?

Please join us and bring any questions you may have to find out more about the DGIS co-funded Plantwise programme.

Where?

Rijnstraat 8, 02.D.075 Multi Purpose Room on the 2th floor.

When?

25 October 2018, doors open at 11:00h, light lunch 11.45-12:30h, seminar 12:30-13:40h, coffee and informal discussion until 14:30h
